Peonies And Lilacs Background For Gingras-Tkachuk Ceremony

Bouquets of peonies and lilacs decorated St. Catherine's Catholic Church, July 4, for the ceremony which took place at 11 a.m. at which Miss Natalka Tkachuk pledged vows of marriage with Mr. Ernest Gingras. Rev. Father McCrane officiated at the double-ring ceremony for the only daughter of Mr. and Mrs. Eli Tkachuk, and the third son of Mrs. C. Gingras and the late Mr. Gingras, of Venice.

Escorted to the altar by her father, the bride chose a beautiful floor-length gown of French lace and net over satin. The bodice featured a round neckline outlined with seed pearls and lily-point sleeves. Her finger-tip veil of net sprinkled with seed pearls and rhinestones, was held in place with a double crown of pearls and sequins. The bride's cascado bouquet of red roses and white lily of the valley, wsa exquisitely hand made by the bride, as were all of the flowers for the wedding party. The bride's only jewelry was a single strand of pearls, gift of the groom.

The charming bride was preceded down the aisle by a trio of bridesmaids, and the two little flower girls were Carol and Valerie Tkachuk, nieces of the bride. Miss Maxine Kinsman of Clyde, as maid of honor, and Victoria Torreson, Venice, and Miss Eileen Biollo, of Lac la Biche, chose matching gowns of white figured net over taffeta, styled with full skirts in ballerina length. Their picture hats of ruffled net, and gloves were in shades of pink, mauve and blue respectively. They carried sprays of Primroses to match their accessories.

The flower girls wore identical dresses of dainty pink nylon over taffeta. In their hair they wore bandeaus of multi-colored apple blossoms, and they carried nosegays of flowers to match.

Roy Tkachuk, brother of the bride, was best man, and Arthur and Louis Macor, of Venice were groomsmen.

Denise Richard presided at the organ, and the Church choir rendered special numbers during the service.

Immediately following the ceremony, a wedding breakfast for 50 relatives and close friends was held at the home of the bride's parents. Later a reception for some 300 guests was held in the

Former Lac la Biche School Principal Dies Suddenly

LAC LA BICHE — Residents of this area were shocked to hear of the sudden death Thursday night, at his summer cottage, of a former principal of the Lac la Biche school, Harry Robinson.

He is survived by his wife and daughter, Sandra. Mr. Robinson was well-known in this district, having been secretary-treasurer of the town in the early '30s, as well as principal of the school.

The sympathy of the community is extended to the bereaved family.

Memorial Hall Future In Balance

LAC LA BICHE—A committee from the town council met with members of the local Canadian Legion last Friday night to discuss the possibility of making the Memorial Hall a community owned and managed project.

As the hall is now in need of considerable improvements both inside and out, and water and sewer must be installed, the Legion would like to see an organization formed representing the community at large, with an elected Board responsible for the administration of the hall.

Before such a plan can be put into operation much more planning and discussion will be necessary. A public meeting is being called in the hall Friday, July 12 when it is hoped that a large number of interested citizens will meet to discuss the future of the hall.

Plans are being made to familiarize everyone in the town and district with this question and everyone is urged to attend the meeting.

District Agriculturist Notes

By J. S. LORE

In the past few years there have been several losses of cattle due to Blackleg. The incidence of Blackleg in this area seems to be increasing and the reason that it is increasing is that livestock operators are not immunizing their calves against this disease.

Blackleg and its twin Malignant Edema, are cattle diseases that are probably as old as the hills. Only in the laboratory can they be accurately differentiated. Dr. E. E. Ballantyne, Director of Veterinary Services, Alberta Department of Agriculture reports that to the end of May 1957 at the veterinary laboratory 8 cases of blackleg, 8 of maglignant edema, 3 mixed clostridial infections and 1 clostridium perfringens were found.

Characteristics of blackleg and malignant edema is lameness and swellings that crackle on pressure due to gas under the hide. Death may appear to be due to bloat. With these diseases, however, bloat occurs after death. Stricken carcarses should be burnt or burried to prevent further spread of these highly resistant spores.

The best preventative is vaccinating cattle with a dual purpose bacterin that will take care of both diseases. Dr. Ballantyne advises keeping this bacterin refrigerated until used, and says time to administer it is when the cattle are from 3-6 months of age.

The cost of this vaccine is very small and considering the effectiveness of the vaccine and the danger of potential loss, I think it is poor business not to immunize the calves against this disease.

GARDEN NOTES

Now is the time to prune your lilacs and spireas. Cut out some of the oldest branches close to the ground and remove wood that has just flowered back to the points where new growth starts. Use a sharp knife and prune, don't shear the plants.

Did you plan your flowers around the house with an eye to color harmony. Most people forget that their flowers should match the house and forget that the whole picture is what a stranger sees from the road or lane.

Clear bold colors are best in preference to dull tones. But too many bright colors planted together are distracting and will tire the eyes. If you want bright color use only one color in its brightest tone with plenty of neutral green foliage. If you wish to use other colors in combination with the bright one, choose soft colors. Rows of bright colors together with the bright one, choose soft colors. Rows of bright colors together with a gay house in the background doesn't give a pleasant picture. Once you've done some experimentation you'll find it exciting and of real interest.

Better get at the thinning of root vegetables, carrots, turnips and beets. And speaking of beets cook them whole, greens and all. These young tender ones are a real delicacy.

You'll love the lasting beauty, washability

Letter To Editor

Not too long ago a group of boys went swimming in Lac la Biche. One youngster was affected by stomach cramps which caused loss of his life.

Couldn't this loss have been avoided? Or, was it something that just had to happen? I doubt that it was the latter.

As all people know, most youngsters in early teens have the urge to swim whenever the opportunity offers. If these youngsters are not taught proper rules of water safety, accidents like this will continue to happen.

Most cases of cramps in the water are caused by entering the water too soon after eating—the reason this fatal accident occurred.

The PTA in Lac la Biche is supposed to deal with the advancement of youth. Don't the members think about the safety of their children? Or do they let the children fare for themselves until later years.

Shouldn't the PTA and town council do something about spreading knowledge of water safety rules? Possibly they could appoint some older person to teach the youngsters how to handle themselves in the water and what precautions to take to avoid accidents and fatalities.

To receive her guests, Mrs. Tkachuk chose a dainty afternoon dress of flowered nylon in shades of blue with white accessories and a corsage of white roses.
